
Cancer patient is out to spread awareness

I am writing to say how pleased I was to read the article 'Cancer campaign to kick off' in 7DAYS (March 4). I have recently been diagnosed with Stage III

colon cancer and am receiving excellent care at the American Hospital. I am only 32 years old.

I have been trying to increase awareness of bowel cancer in the young with a daily blog- www.didamushroomsavemylife.blogspot.com, by raising more than Dhs30,000 for Beating Bowel Cancer and holding talks with American Hospital to devise patient information sheets on signs and symptoms.

I hope this campaign proves successful and saves lives.
